

Sexual Assault Awareness Month: Documentary Screening

The Office for Women & Domestic and Sexual Violence Services will be hosting a documentary showing of, 'Boys and Men Healing' which focuses on a group of men who are survivors of childhood sexual abuse. Each of the men featured discusses his personal experience with healing and moving beyond the abuse. The documentary will be shown twice with an information session in between. All County employees and interested parties are invited to attend.

"Boys and Men Healing is a powerful film, which will truly benefit men sexually abused as children, and those who care about them.... Kathy Barbini's film has the potential to transform those stories and voices into healing –not only for individuals but also for families, communities, and even societies."
